## About Us

25 Inc. is defined as an Edge Computing Technology Incorporation which was established in 2016. It has been incubated at Sai Gon High Tech Park – Incubation Center at Ho Chi Minh city for 5 years so far. In 2018, we graduated from SHTPIC with the project – “gànnhà.com, Offline to Online Platform”. At the present, we are being incubated with the new Hardware Project - **“Signee – The Smart 5G & Data Navigation Cloud Box”**.

Field of operation: Information Technology, Cloud computing, IoT Hardware

Our office is on the 3rd Floor – Sai Gon High Tech Park Incubation Center

The office space is about 500 meters. In trendy tech workplaces, we encourage the employees to connect and get creative

The modern facilities are equipped to support employees working effectively

## Vision - Mission

The advent of the digital economy was facilitated by the digital revolution, also known as digitalization information, combined with the Internet, creates high data usage that must be analyzed by an intelligent modern edge technology platform. With our vision, real-time data become valuable, reliable and precise.

Our mission is positioning official data by Edge Computing Technology Techniques, connecting the real-time data with geography location will help the information come to be closer, faster and more accurate.

# Human Resources
